Professional Summary

Innovative Senior Frontend Engineer with over 3+ years of experience in architecting and developing high-impact web applications. Recognized with the Edison Award for innovative problem-solving at Razorpay. Proficient in JavaScript, TypeScript, React, Svelte, and full-stack development, with a strong foundation in backend technologies. Proven track record in leading critical projects, mentoring teams, and delivering scalable, high-performance solutions.

EXPERIENCE

Razorpay

Oct 2023 - Present

Bangalore, India

Senior Frontend Engineer

- InstantEMI: Architected and developed a "Buy Now, Pay Later" service integrated into Razorpay Checkout, featuring Aadhaar verification, E-Sign, Selfie KYC etc, using React, TypeScript, and Tailwind.
- Device Management System: Created the frontend architecture and technical specifications for a Device Management platform for banks to monitor and manage Razorpay POS devices.
- Razorpay Checkout: Made key feature contributions to the affordability stack, supporting 150+ million transactions per month.
- Leadership & Mentorship: Interviewed 15+ candidates and mentored junior developers, fostering team growth and skill development.

Razorpay

Aug 2021 – Sep 2023

Bangalore, India

Frontend Engineer

- Native OTP: Re-architected the microservice using Playwright and TypeScript, boosting card support from 25% to 80%. Developed a custom rule engine with a 90% success rate for new OTP pages.
- Awarded the **Edison Award** for innovative problem-solving in the Native OTP project, significantly improving card support and transaction success rates.
- Affordability Widget: Led the development, improved Lighthouse score by 20%, and created a web component version to enhance integration flexibility.

Entri Dec 2020 – March 2021

Frontend Intern

Remote, India

- Contributed to rearchitecting the Entri web app, converting Figma designs to responsive web pages.
- Developed **custom React hooks** and integrated **FreshChat** AI-based customer support into the platform, improving user engagement.

Pixenova
Co-Founder

Dec 2020 – Jul 2021
Cherthala, India

- J4Joli: Architected and developed the backend for this job listing platform with 20,000+ paid users. Implemented JWT & OTP-based authentication, user role management, and payment gateway integration using Node.js, Express, and MongoDB.
- Successfully **delivered two client projects**, handling full-stack development, system architecture, and customer relations.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks: React, Svelte, Tailwind, SASS/SCSS Developer Tools: Git, GitHub, Docker, VS Code, Figma

Libraries: Redux, Axios, Jest, Vitest, Playwright

Polygram | React, Javascript, SCSS, Node.js, Express, MongoDB

2021

• Architected, designed, and developed a social media web app using the MERN stack. Features include JWT-based authentication, Google Login, Dark Mode, Push Notifications, and custom-designed UI.

React Rhino | React, Typescript, Context API

May 2018 – May 2021

• Developed an ultra-lightweight state management library (~ 600 bytes) with TypeScript support using the Context API of React.

Worker Man | Node.js, Typescript, Worker Thread

2023

• Created an **npm package** offering a **simple API** to consume worker threads in **Node.js** with zero dependencies and a size of only ~ 400 bytes.

WhatSend | SvelteKit, Typescript

2023

• Developed a **web application** using **React** and **JavaScript**, later migrated to **SvelteKit** and **TypeScript**. It's a TWA listed on the Play Store that allows users to send WhatsApp messages without saving contacts.

EDUCATION

APJ Abdul Kalam Technological University

Cherthala, India

B. Tech in Computer Science and Engineering

2017 - 2021

• Founded and led Pixenova, developed the official college website, and made notable open-source contributions.

ACHIEVEMENTS

- Edison Award for innovative problem-solving at Razorpay.
- Founded Pixenova and successfully delivered high-impact projects during college.
